

Cloud Skills are in demand. Grab your seat.

5th April - AI Fundamentals

7th April - Azure Fundamentals

8th April - Security Fundamentals

Students don't miss out on this free, exclusive, time-limited, training opportunity. Microsoft are bringing you the opportunity to certify on **Microsoft Fundamentals**:

- Providing you with cloud skills aligned to industry job roles.
- Securing additional certifications whilst in education.
- Boosting your employability with certification of real-world skills.

We are offering students the opportunity to access live training webinars, exam practice tests and the certification exam at no cost. With world class training you can fill your knowledge gaps and certify with this programme. The Microsoft Fundamentals certifications are gathering pace within educational institutions across the world.

Join your peers and make the most of this opportunity to boost your CV with one, or more, of these popular professional qualification for proving your skills and abilities.

Register **TODAY** and receive an email with:

- A self-study **resource pack**.
- Invitation to the **Live webinars**.
- A **MeasureUp Practice Test** voucher for you to self-test and become 'exam ready'.
- Microsoft Fundamentals **certification exam** at no cost.
- Details on how to book your exam session.
